Minor Trade Waste

Category 1 – Deemed Minor Trade Waste Customer Listing Schedule

All businesses or institutions that are classified as Category 1 Trade Waste must comply with the conditions contained in the default Trade Waste Consent (Appendix A). Customers defined as Category 1 Trade Waste are considered to have entered into a default Trade Waste Consent with Westernport Water.

Westernport Water may add or remove businesses or institutions from this schedule in light of further operational experience. Westernport Water may inspect premises to confirm that the actual business is Category 1 Trade Waste.

All businesses or institutions other than those assessed as being Category 1 Trade Waste will be required to enter into a Trade Waste Agreement with Westernport Water.

Definition of Category 1 Deemed Minor Trade Waste:

Customers who discharge only small quantities of trade waste to Westernport Water's sewer will, if the trade waste is of a similar nature to domestic sewage, be defined as a Category 1 Deemed Minor Trade Waste Customer.

APPENDIX A

DEFAULT CONSENT TO DISCHARGE MINOR TRADE WASTE

Contact Details Trade Waste Representative
Westernport Water 2 Boys Home Road Newhaven Vic 3925
Telephone: 5956 4188 Facsimile: 5956 4101

Westernport Water agrees to accept trade waste discharge from the customer subject to the following conditions:

1. Type of Discharge
 - 1.1 The waste is of a similar nature to domestic waste.
 - 1.2 The customer must notify Westernport Water immediately if it is proposed that the quality or quantity of the waste discharged to the sewer is to change.
2. Inspection and Monitoring
 - 2.1 The customer must allow Westernport Water access to the property at times when Westernport Water reasonably believes the customer is operating, for the purposes of monitoring the quality and quantity of waste discharge to sewer.
 - 2.2 Westernport Water may sample the waste from any place on the property, and test for any physical or chemical parameters.
